to hurricanes,
you'll be
covered.**

Get flood insurance this
hurricane season.

**“I had 1.5 feet
of water in my
bedroom, but
I can recover.”**

— DANIELLE REES,
HURRICANE SURVIVOR

Protect the life you’ve built with flood insurance.

The 2018 hurricane season packed a devastating punch – 15 named storms, including Hurricanes Florence and Michael, destroyed homes and livelihoods with costly flood damage. And it can happen again.

Flooding is the most common, and costly, natural disaster in the United States. In fact, just one inch of flood water in an average-sized home can cause more than \$25,000 in damage. Whether your home floods due to heavy rain or a violent hurricane, flood insurance helps cover the cost of repairing your home and replacing your belongings.

For more information, call your insurance agent or visit www.floodsmart.gov/hurricane.

Why you need flood insurance.

Hurricane season is here, and one of the most important steps homeowners can take to prepare is to buy flood insurance today. Here are just a few reasons why flood insurance is an important investment:

- More than 20 percent of flood insurance claims come from outside high-risk areas.
- Storms are not the only cause of floods. Flooding can be caused by coastal storm surges, heavy rainfall, poor drainage in low-lying areas, and much more.
- In the event of a storm, federal disaster assistance may be limited or unavailable.
- Most types of federal disaster assistance require a presidential disaster declaration. Assistance comes in the form of low-interest disaster loans that must be repaid — with interest!

Most homeowners insurance does not cover flooding. But with flood insurance, you’re covered.

Remember:

Policies typically take up to 30 days to go into effect. Call your insurance agent today and invest in flood insurance. Now is the time to protect your largest financial asset.
